

Agents for
Digital Transformation

Our vision is to enable Owner, General-Contractor and Sub-Contractor Organisations in BIM & Digital Adoption. Our services include setting up the BIM Department, Technology & Equipment Sales, Staffing, Corporate Training, BIM - VDC - Project controls - Reality Capture - Digital Twin services and B2B Events.

Agents for
Digital Transformation

BIMCrew's Past Experience

BIMCrew's leadership brings extensive hands-on experience in driving digital transformation and BIM implementation across the full spectrum of project stakeholders, including Appointing Parties, Lead Appointed Parties, and Appointed Parties as discussed below.

Appointing Party (Client)

Public clients such as India's Digital Transformation strategy, driven through NitiAayog (BIM Mandate), Central Public Works Department (National Strategy), Bureau of Indian Standards (National BIM Guidelines), National Building Code (BIM Inclusion), Advisory for Ministry of Defence and Engineering services. And, private clients such as Reliance Industries Limited & DAMAC Group (organisation transformation plan).

Lead Appointed Party (General Contractor)

General contractors include Larsen and Toubro Ltd. Coordination was with 90+ departments from all independent companies (ICs) and business units combined. A detailed roadmap was developed for each IC. Central divisions and training centres were set up to handle the coordination. Advisory-level coordination was also conducted with other General contractors, such as Tata Projects, Shapoorji Pallonji, and Ahluwalia Contracts.

Appointed Party (Subcontractors, service providers & OEMs)

Strategic support was provided to organisations such as Hilti (subcontractor), Bexel (tech vendor), EADIC and Zigurat (education provider), and a few BIM service providers.

Strategic Consulting Services for Digital Transformation & BIM Enablement

BIMCrew offers high-impact strategic consulting services to guide organisations through their digital transformation journey in the built environment sector.

BIM Department Setup & Organisational Enablement

Assessment of Current Capabilities: Audit of existing digital tools, processes, and people.

BIM Organisational Structure Design: Define roles such as BIM Manager, Coordinator, Modellers, QA/QC, and IT support.

Process Frameworks & SOPs: Develop workflows aligned with ISO 19650, National BIM Guidelines, and project-specific requirements.

Recruitment & Upskilling Support: Assist in hiring and training of internal BIM teams.

Change Management & Digital Culture Building

Leadership & Stakeholder Workshops: Align leadership with digital transformation vision and goals.

Change Readiness Assessment: Evaluate resistance, training needs, and communication gaps.

Internal Capacity Building: Customised training programs to foster a digital mindset across departments.

Champion Network Creation: Identify and empower early adopters and change champions within the organisation.

Digital Transformation Roadmap

Vision & Strategy Development: Define short-, mid-, and long-term goals for digital maturity.

Digital Twin & Smart Asset Strategy: Lay the foundation for operational efficiency post-handover.

Tool & Platform Evaluation: Recommend interoperable tools for BIM, CDE, project controls, and FM integration.

KPI Framework & ROI Planning: Establish measurable outcomes to track progress and business value.

BIM Execution & Governance Support

BIM Policy & BEP Development: Draft organisation-wide BIM policies, templates, and project BEPs.

Quality Control & Model Auditing: Implement QA/QC protocols and audit mechanisms for all deliverables.

Cross-Project Oversight: Provide governance support across projects to ensure consistency and compliance.

Stakeholder Collaboration Frameworks: Enable better communication with consultants, contractors, and facility managers.

Long-Term Advisory & PMO Support

Digital PMO Setup: Establish a central team to oversee BIM & Digital initiatives portfolio-wide.

Innovation & R&D Advisory: Guide adoption of emerging tech (AI/ML in construction, AR/VR, sensors, etc.)

Vendor & Technology Procurement: Assist in vendor evaluation, contract structuring, and digital procurement strategy.

BIM Staffing Services

BIMCrew provides staffing services to the Owner and General Contractor organisation for production, coordination, management and leadership roles listed below.

BIM Production Roles

BIM Modellers for Architectural, Landscape, Interior design, Civil, Structural, Mechanical, Electrical, Plumbing, Fire protection, Electrical Alarm System, IT, Security & AV. BIM Engineer for object/family/library creation.

BIM Specialist for 4D BIM - Construction planning & monitoring, 5D BIM - for cost planning & monitoring, Immersive Experience, VDC simulations, Reality capture, Lean & Green, Geo-BIM, smart contracts, ROI, Safety & Risk, Procurement & Logistics, Digital Twin & Building Automation.

BIM Co-ordinator & Management Roles

BIM Coordinators for Design, Construction & Asset Management, trainings, partnerships & CDE strategies.

BIM Manager for information management in design, construction & Asset management.

BIM Advisory & Leadership Roles

BIM Advisory advises AEC sector organisations in organisation and business strategies, support in critical decision making in terms of software, hardware, team building, partnerships, training and workflow strategies.

BIM Leadership: He heads the BIM & Digital initiative in the organisation. Production & management roles report to leadership. He is responsible for getting the BIM workflow aligned to procure the Org BIM certification.

BIM Training Services

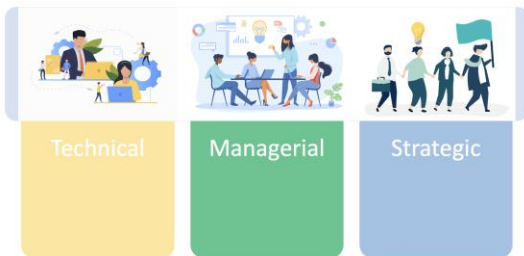

BIMCrew delivers a full-spectrum training ecosystem tailored to the dynamic needs of the BIM domain. We cater to roles spanning Production, Coordination, Management, and Leadership within BIM, helping build a digitally fluent AEC workforce.

BIMCrew covers a comprehensive range of topics designed to empower AECO professionals with advanced BIM and digitalisation skills. Foundational concepts, including BIM fundamentals, global standards (e.g., ISO 19650), LOD, BIM acronyms and workflows, and extends into BIM implementation approaches across all project stages, creating BIM Execution Plans (BEP), define Employer's Information Requirements (EIR), and leverage Integrated Project Delivery (IPD) and Common Data Environment (CDE).

Advanced subjects include immersive technologies (VR/AR/MR), digital twin, smart contracts, ROI tools, COBie, soft landings, dispute management, and ISO certifications. Participants also gain expertise in BIM software, including Autodesk Revit, Bexel Manager, Plannerly, Fuzor, Esri, Trimble, ACCA, and Bentley, as well as devices such as drones, 360 cameras, laser scanners, and VR setups.

Strategic topics encompass establishing BIM strategies at both organisational and project levels, conducting BIM maturity assessments and audits, setting up BIM services and centres of excellence, and managing partnerships across BIM, GIS, VDC, reality capture, project controls, and building automation. The program prepares participants for roles in BIM production, coordination, management, leadership, and advisory.

BIMCrew's leadership has successfully enabled over 30,000+ professionals to build robust BIM skills and competencies, driving capacity development across the AECO industry.

BIM Technology Sales & Support

BIMCrew serves as an authorised reseller and implementation partner for this set of technologies, helping Indian Client, Contractor, and Sub-Contractor organisations adopt and integrate them effectively into their digital construction processes.

The featured tools—ACCA Software - Italy, BEXEL Manager - Serbia, ISETIA - Poland, Revizto - Switzerland, Nexus Twin - Macedonia, Fuzor - USA, VisiLean - Finland, BAMROC - India, Bricsys - Belgium, Plannerly - USA and CUPIX – South Korea, CAD-Power & Geo-Tools - India — support a wide range of functions including 3D modelling, 4D/5D BIM, VDC Simulations, integrated project delivery, coordination, scheduling, and digital twin technology. These solutions enhance collaboration, improve accuracy, and streamline project workflows.

BIM Equipment Sales & Support

BIMCrew supplies equipment needed for BIM & digital adoption, including high-performance workstations, mobile devices, Experience /control centre, Jaibot, laser scanner, drone, 360 camera, total station, VR & AR devices, Cyber dog, 3D printer & plotter.

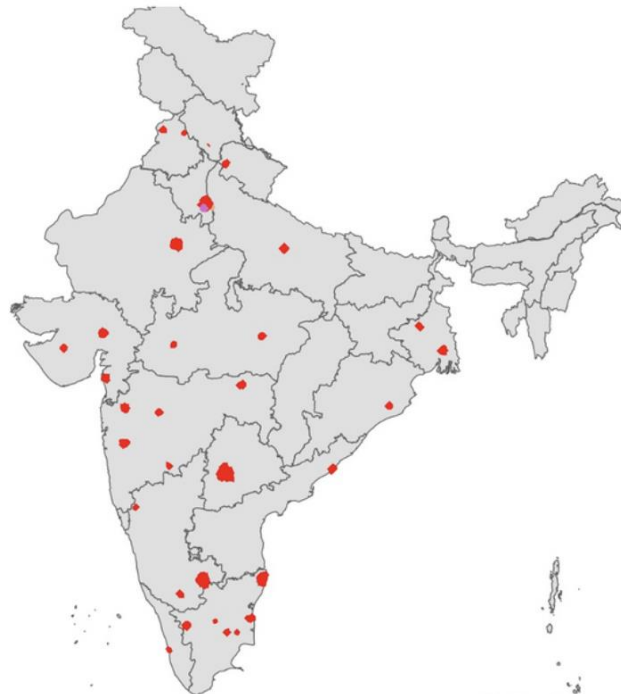

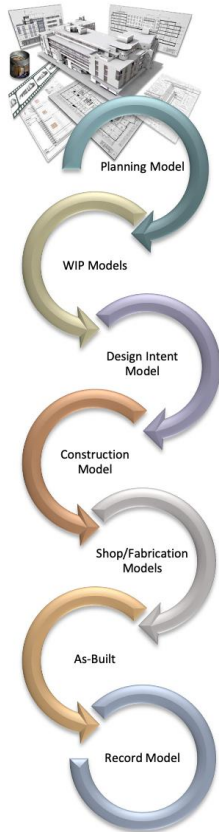

Delivery Partners

BIM-VDC-Project controls-Reality Capture-Digital Twin services

As a one-stop solution for BIM support, BIMCrew operates through a widespread delivery partner network strategically located in 40+ cities, to further strengthen the reach of BIMCrew's delivery network, ensuring nationwide accessibility and support for digitalization in the built environment. We offer a one-stop solution for digitalization of the Built Environment that includes Geospatial, BIM (design authoring), Engineering analysis, Digital Twin, Project controls, VDC, Reality capture, Immersive experience, building management system, training, and hand-holding services are available from BIM and digitization service providers. These services are offered as a one-stop solution.

BIM Delivery Partners

300+ SMEs
5000+ BIM professionals
BIMCrew is one stop BIM Support

Delivery Partner Location

Tier 1 cities

Mumbai, Delhi, Bangalore, Chennai, Hyderabad, Kolkata, Pune, and Ahmedabad.

Tier 2 cities

Surat, Jaipur, Lucknow, Indore, Noida, Kochi, Nagpur, Rajkot, Coimbatore, Gurgaon, Mysore, Amritsar, Visakhapatnam, and Navi Mumbai.

Tier 3 cities

Aurangabad, Bhubaneswar, Dehradun, Tiruchirappalli, Belgaum, Shimla, Jabalpur, Hoshiarpur, Thanjavur, Bidar, Durgapur, Namakkal, Solapur, Kollam, Janakpuri, Chidambaram, and Jabalpur.

BIMCrew Consultancy

Leadership

Dr Amarnath CB
Chief Strategy Officer, BIMCrew

office@bimcrew.in
+91 9686623376

He has previously served as AVP & Head - BIM & Digital at Reliance Industries and Larsen & Toubro Ltd.

He has a Ph.D. in Establishing Organisation BIM & Digital Strategies from National Taiwan University and Imperial College London. Throughout his career, he held positions in India, Taiwan, Spain, Italy and the UK.

Active role in several Digital Built India initiatives to drive the digital transformation within the Indian Construction Sector. Leading the development of National BIM Guidelines at the Bureau of Indian Standards. Spokesperson to introduce BIM in the National Building Code of India. He is the founder president of the National BIM Society - India BIM Association ®, which focuses on Digital Transformation of the Indian Construction Sector. Additionally, he advises key Indian ministries and institutions such as MES, MoD, MoH&FW, MoHUA, CPWD, GRIHA, IGBC, COA, FOCUS, CII, BAI, and CREDAI in BIM & Digital Initiatives.

He is on the Board of Studies for Symbiosis International, Vellore Institute of Technology, and SRM University. He is a guest faculty at IIT Delhi, IIT Madras, IIT Mandi, IIT Jodhpur, IIT Bhubaneswar, IIT Guwahati, IIT Palakkad, SPA Delhi, SPA Bhopal, CEPT University, NIT Trichy, NIT Suratkal, NIT Warangal, etc.

Internationally, he partnership with CanBIM, BIM Forum Brazil, BIM Africa, BIM4Turkey, BIM Serbia, Thailand BIM Association, Taiwan BIM Alliance, HKABAEIMA, Nepal BIM Forum, UAE BIM Association & Sinaenco.

Hamsaja CH
Chief Executive Officer, BIMCrew

office@bimcrew.in
+91 9844446605

Hamsaja currently leads BIMCrew Consultancy Pvt. Ltd. as CEO and is a recognized leader in promoting BIM and Digital Transformation within the Indian AECO sector. With over a decade of professional experience across corporate, NGO, academic, and consulting roles, she plays a pivotal role in shaping digital innovation strategies for the built environment.

She holds a Global MBA from National Taiwan University, where she focused her thesis on Digital Transformation Strategies for Construction Organizations, along with an MBA in Finance from Sikkim Manipal University and a BBM from Bangalore University.

Hamsaja is a key contributor to several national initiatives aimed at digitalizing the construction sector. As a Governing Body Member of the India BIM Association and a Principal Member of the BIS Construction Management Committee (CED29 & P3), she supports the development of national BIM standards and frameworks. She also serves as a Committee Member of the Construction Skill Development Council of India (CSDCI) under NSDC, contributing to capacity building and workforce upskilling for the construction industry.

Beyond policy and consulting, she promotes education and awareness as Guest Faculty at Bangalore University and a Board of Studies Member at Kolhapur Institute of Technology, driving BIM integration into academic curricula.

Her mission is to accelerate the adoption of BIM and digital practices across AECO organizations in India, with a focus on strategic alignment, standards development, professional training, and policy advocacy.

Join Meeting

Talks on Digital Transformation Journey of Indian Construction sector

Open forum to network & discuss
2&4th Saturday 10:00 - 11:00 AM IST | Online

Topics covered under group discussions will circle around BIM, Digital Twin, 3D-4D-5D-6D-7D dimensions of BIM, CDE, Block chain, IOT, Building Automation, Prefabrication, DFMA, 3D Printing, Lean-BIM, Green-BIM, Digitalising construction project management, VR-AR-MR, Reality capture, Drone fly, Big DATA, AI, ML, Construction Automation & Robotics, Generative design, BIM standards, Change management, Market-Organization-Project strategies, BIM / Model Uses, LOD, Organization-Project-Model maturity assessments, ROI, VDC, Organization & Business Strategies, BIM Job roles, AEC sector initiatives, BIM technologies, Open BIM, BIM skills & competencies, Global trends, etc.

Audience can be Architects, Civil-Mechanical-Electrical Engineers, Construction Management Professionals, Real estate, Builders, Asset Management professionals, Client Organizations, General Contractors, OEMs, Tertiary education system, etc.

Let's Work together
for Digital Transformation
